CREATIVE CONCRETE SOLUTIONS

Our Top 2 Requested Solutions

1- Prep and Seal

We all invest thousands of dollars in concrete. Some spend even more by purchasing stamped or other decorative concrete solutions. One thing is true for all concrete. In order to last it must be protected. We provide the solutions for you to do so. For around \$1.50 per square foot we can prep and seal your concrete with our 5 year sealer. That's right 5 years with a manufacturer warranty. Why have us do it? The manufacturer provides the warranty when a certified applicator applies the product. Why a certified applicator? Because the most important aspect of sealing is the preparation. If the concrete is cleaned and prepared properly the sealer will bond providing protection that lasts!

2- Repair and Overlay

Some of you reading this flyer have damaged concrete. It is chipped, cracked, flaking, spalled, discolored, and probably has some oil marks. The solution we provide is tremendous. Replacing the concrete will not guarantee you won't have the same problems. With our product you can have brand new looking concrete (decorative if you choose) for a fraction of the cost of new concrete.

Creative Concrete Solutions for any project
